

ALCHIMIA

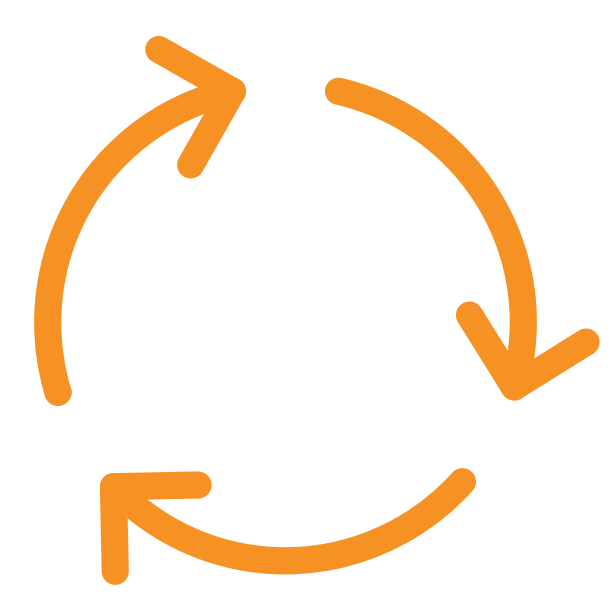

Data and decentralised **AI**
for a competitive and
GREEN European
Metallurgy Industry

**Green Transition in
EU Metallurgy Industries**

**Reduce Energy Consumption
in steel sector**

**Waste management in steel
making process**

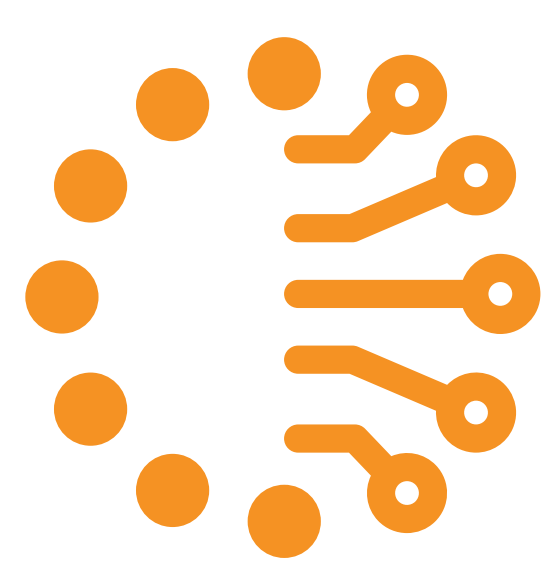

**Green Production process in
EU steel sector**

**Emission management in
EU Steel sector**

**Enabling AI applications in
an energy and resource
intensive industry context**

**Advancing on the EU and AI
strategy**
